

STATINTL

MEMORANDUM FOR: [REDACTED]

Attached is [REDACTED] memo citing the corrections needed in Map No. 76717. All items except No. 3 were discussed yesterday with Dick and according to the analyst's [REDACTED] memory were also noted in conference previously. As I indicated to you, we thought the map was being held. I can't imagine what went wrong, but I have given orders that henceforth the results of these checks are to be recorded in writing at the time as well as communicated orally. Item No. 3 slipped by everybody; I feel these symbols should also be in red because they comprise one-half the message that the map carries.

Dick
